Outdoors Fun

- Blow bubbles for infants, naming the parts of the body they land upon. “The bubble’s on your head. Uh-oh, there’s a bubble on your tummy!”
- Take toys outside and play on a comfy blanket. Hide a toy behind your back, asking “Where’s the ball?” Bring it back to the baby saying, “Here it is. Here’s the ball”.
- Sing songs and finger plays while outside with infants. Give infants musical instruments to shake, rattle and roll while you sing.
- Take infants on a stroller ride, while naming the sights and sounds. “Look at that bird! It says, tweet, tweet.”
- Find a shaded area and look at books or a photo album with infants. Point to and name pictures of familiar objects or people.

Let infants’ everyday classroom activities POP with literacy-learning POWER!
